

Bulman Ergo Packaging Rack

Bulman Ergo Packing Rack - T368-36 60H

NEW

Front

Rear

Our versatile multi-function & ergonomic packing rack-provides a broad number of uses-from wrapping, to packaging, all at an ergonomic working height ~60 inches.

With mobility options or free-standing, in addition to accessory hooks, and material hold down configurations.

Standard Features:

- Two commercial grade material dispensing tear bars
- Two position standard rolled materials up to 9' on center at working height (with dowels).
- A third position, rolled material up to 36'+ (with dowel)
- Hold-downs bring materials to adequate working heights i.e., ERGO-nomic.
- Durable Powder Coated Paint Finish

Additional Options (pricing next slide):

- Available Ribbon, sticker & scissor holders on either side, making user experience better when packing, cutting, labeling as items can be close at hand. (additional cost)
- Available Caster Option (additional cost)
- Multiple Hold-downs for various materials (additional cost)
